

Ryntek.AI Solutions Catalogue

Empowering Businesses Through Intelligent Automation

About Ryntek.AI

Ryntek.AI provides intelligent automation solutions that transform how businesses engage customers, manage operations, and grow. Our AI systems capture leads, automate workflows, manage communications, and create fully connected ecosystems for businesses of all sizes and industries.

Whether your client wants to **enhance engagement**, **reduce manual work**, or **build a fully custom AI infrastructure**, Ryntek.AI has a solution that can be tailored to their needs.

How to Use This Catalogue

Sales partners should:

- Match client needs with the most suitable solution.
 - Show clients the **list of included services** to help them understand exactly what they are getting.
 - Offer **mix-and-match options**: clients may want a base solution plus specific services from other tiers as add-ons.
 - Always ensure **custom solutions or combinations outside the approved list** are submitted to Ryntek.AI for written approval before pitching or confirming with clients.
-

Core Solutions

IGNITE

Engage, Capture, and Book Automatically

Purpose

IGNITE is the foundation of automated client engagement. Every inquiry receives an instant response, leads are captured automatically, and appointments are booked without delay.

Key Features / Services Included

- Instant answers to client questions across **website, WhatsApp, and social media**
- Automatic appointment booking through integrated calendars
- Lead organization and follow-up tracking
- Friendly technical support anytime
- Ongoing system monitoring for reliability

Clarity Note:

Think of IGNITE as a **smart assistant** that ensures no lead is missed, all inquiries get a response, and your client's team does not have to manually follow up with every potential customer.

Best For

Small to medium businesses or service providers who want to **save time** and **increase lead conversion**.

Outcome

Faster responses, higher conversion rates, and a consistent client experience without additional staff.

FLOW

Eliminate Manual Tasks. Focus on What Matters

Purpose

FLOW automates repetitive workflows, ensuring smooth and consistent communication with clients. It links multiple systems and handles follow-ups automatically.

Key Features / Services Included

- AI-powered lead finding and qualification
- Automatic follow-ups, reminders, and notifications
- Centralized workflow and data organization
- Automatic updates to internal databases and CRM systems
- Continuous improvement as your business evolves

Clarity Note:

FLOW acts like a **digital operations assistant**, ensuring tasks that normally take hours of manual work — such as reminding clients, updating records, and following up — happen automatically.

Best For

Businesses looking to scale without hiring more staff. Ideal for **real estate, healthcare, and service industries**.

Outcome

Higher productivity, fewer missed leads, and smoother coordination between teams and systems.

SCALE

Calls That Qualify, Confirm, and Schedule**Purpose**

SCALE introduces an AI Voice Agent that manages inbound and outbound calls, ensuring clients receive consistent and professional communication without missing opportunities.

Key Features / Services Included

- 24/7 inbound and outbound call handling
- AI-based call qualification and lead capture
- Automated appointment scheduling and confirmation
- Real-time call summaries and CRM updates
- Natural-sounding voice interactions with human-like flow
- Regular system updates and dedicated technical support

Clarity Note:

SCALE is like having a **virtual receptionist** who answers calls, qualifies leads, schedules appointments, and updates client records automatically. No staff needed for routine calls.

Best For

Businesses with high call volumes such as **clinics, real estate offices, or service centers**.

Outcome

Improved response rates, better client satisfaction, and more time for human teams to focus on closing deals.

INFINITY

Everything Connected. Fully Tailored to Your Business

Purpose

INFINITY delivers enterprise-grade automation by integrating all business processes into a single intelligent system. It's fully customizable for companies with advanced operational needs.

Key Features / Services Included

- End-to-end AI workflow automation
- Lead generation, qualification, and routing
- Internal dashboards and reporting tools
- API integrations for CRM, ERP, and marketing systems
- Enterprise-level support, updates, and maintenance

Clarity Note:

Think of INFINITY as a **fully connected business brain**. Every system talks to each other, automates operations, and gives managers a real-time view of their business performance.

Best For

Enterprises or growing businesses requiring a **customized solution** tailored to internal operations.

Outcome

A fully connected ecosystem that maximizes efficiency, reduces costs, and centralizes operations.

Services | Add-Ons

Clients may want services outside a single solution tier. Sales partners can offer **add-ons** individually or alongside a solution.

Available Add-Ons

- **AI Chat Integration:** Adds automated chat support to web, WhatsApp, or social media
- **CRM Setup & Automation:** Organizes leads, tracks interactions, and triggers automated workflows

- **WhatsApp & SMS Notification Systems:** Sends automated client notifications for appointments, updates, or promotions
- **Lead Tracking & Analytics Dashboards:** Provides insights into lead activity and sales performance
- **Custom API Development & Integrations:** Connects AI systems with other business tools
- **Multi-language Voice & Chat Agents:** Supports multiple languages for global or diverse client bases
- **Website Contact Form Automation:** Captures leads from website forms and routes them automatically
- **Email Automation & Marketing Integration:** Sends automated marketing emails and integrates with existing platforms

Clarity Note:

Add-ons allow clients to **customize the solution to their exact needs**. For example, a client could choose IGNITE for engagement but add CRM automation from FLOW for internal tracking.

Maintenance & Retainer Plans (Optional)

Monthly Maintenance Plan

- Regular system monitoring and updates
- Bug fixes and performance improvements
- Workflow adjustments as business grows
- Priority email and technical support
- Ongoing support for a fixed monthly fee

One-Time Service Package

- Full system diagnostic check
- Optimization and bug fixes
- Workflow documentation

- Optional training session for staff
- One-time fee based on system scope

Clarity Note:

Maintenance ensures the system keeps working reliably and adapts to client growth without manual intervention.

Partner Guidance

- Always match the client with the **solution tier** that fits their primary needs.
- Show clients the **full service list** and highlight possible **add-ons**.
- For clients who want a mix of services from multiple solutions, create a **custom proposal** but submit it to Ryntek.AI for **written approval** before confirming.
- Use the **Solutions Catalogue, Pricing Guide, and Proposal Template** for all client communications.
- Emphasize that Ryntek.AI provides **both system deployment and ongoing support**, ensuring long-term satisfaction.
